

Tribute to lost member

We have now sadly, lost another member of our club big **DAVE BUTTON** who has been at the club when it was at Kaeden Place and before that it was called Rainbow Fuscias, with our welsh friend Brian Pusey.

Dave was a stalwart of the club who was a definite character, he loved all types of wood and what could be made with it, he loved the different grains and colours however he did not like demonstrators colouring the wood with paint or stain. This of course he made sure the demonstrator knew, Dave was always ribbed by the club members when wood was coloured and Dave took this jibing with a good heart. He would always shout out '**COME ON**' when it was time to re-start the second half of demo.

Dave was an excellent wood turner and he had the most comprehensive amount of wood working tools you could imagine. He , I believe had the most wood turning tools I have ever seen, no professional turner had as many. It was said that Axminster tools would phone him and ask if they could buy some from him as they were out of stock.

Dave was also a keen fisherman and Dave being Dave had a vast collection of rods and other fishing equipment.

Our thoughts are with his wife Di at this time, who is also a stalwart of the club and committee member.

'Stand easy big man your duties are done'
